

A Postdoctoral Fellow is recruited to study allergy

PROJECTS

1. Role of histamine-releasing factor in asthma and food allergy
2. Mechanisms of IgE/Fc ϵ RI-mediated activation and signal transduction

Refer to our publications: **Cancer Cell** 16:161, 2009; **J Exp Med** 206:1219, 2009; **Immunity** 34:893, 2011; **J Clin Invest** 122:218, 2012; **Cell Rep** 6:366, 2014; **J Clin Invest** 127:4541, 2017; **J Allergy Clin Immunol** 139:997, 2017. **Cell Host & Microbe** 26:3, 2019. **J. Allergy Clin Immunol.** 145:114, 2020.

REQUIREMENTS

Molecular and cell biological techniques and allergic disease models are being used. Highly motivated individuals with a Ph.D. and/or M.D. degrees are welcome to apply. One position will be filled as soon as possible.

CONTACT

Interested individuals should email their CV to toshi@lji.org
